

## GREATEST OPEN-AIR CABARETTE FEATURE OF ELKS' CLAM BAKE

ANNUAL AFFAIR WILL BE BIG-  
GER THAN EVER COMING  
LABOR DAY.

## ADELHEID PARK IS CHOSEN

Ideal Site For Great Outing—Is Place  
of Unusual Scenic  
Beauty.

The biggest open-air cabarette show  
ever given west of Chicago will be  
staged at Adelheid park Labor day,  
Monday, Sept. 4, in connection with  
the annual clam bake of Dixon Lodge  
No. 779, B. P. O. Elks. Contracts for  
the big production were signed with  
a Chicago producing concern this af-  
ternoon and a score of the biggest  
cabarette stunts obtainable in Chicago  
will be given here.

The cabarette undertaking is the  
most pretentious the Elks have ever  
undertaken in connection with their  
annual clam bake, and it is anticipated  
the great feature will enhance the  
attendance. The decision to hold the  
clam bake was reached at a meeting  
of the house committee of the lodge  
Tuesday evening, and it was decided  
to hold it at Adelheid park, the use  
of which grounds has kindly been ac-  
corded by John and David Martin, the  
owners, of Sterling.

### Beautiful Spot.

Adelheid park is one of the most  
beautiful spots in this vicinity, and  
inasmuch as it is easy of access by  
automobile or street car, those who  
attend will find transportation facil-  
ities the best. The clam bake grounds  
will be on the highest spot in the  
park, the location being ideal.

Had George Page survived to car-  
ry out his plans, the park would un-  
doubtedly have been one of Dixon's  
most boasted beauty spots. The work  
which he started shows to wonderful  
advantage, and hundreds who will  
visit the park for the first time Labor  
day will marvel at the hard roads  
which run through the park, the  
great gullies, pretty woodlands, etc.

### Bigger Than Ever.

The committee plans to make the  
coming clam bake the biggest ever.  
There will be more variety of eats  
than ever before, and in addition to  
the great cabarette two big wrestling  
bouts and many athletic events will  
be staged.

### GRASS FIRES.

Two grass fires along the Illinois  
Central tracks resulted in the fire de-  
partment being called out twice Tues-  
day. No damage resulted.

### EX-SENATOR THURSTON.

Omaha, Neb., Aug. 9.—John M.  
Thurston former senator and promi-  
nent republican, is dead.

Thurston's speech in the Senate  
precipitated the Spanish-American  
war.

## POSTPONE ACTION UNTIL NEXT YEAR

THE PROPOSITION FOR CLOSED  
NIGHTS PUT ON SHELF  
FOR SEASON.

Probably some are wondering what  
became of the petition started by the  
Civic League Auxiliary in regard to  
closing the stores on Wednesday eve-  
ning. In fact such a wonderment has  
met us a few times in our search for  
news. Well, the petition isn't dead,  
but simply stowed away until next  
year. As the season was already so  
far advanced with but a few weeks  
until we may look for the cool days  
of fall, it was thought best not to  
make a change for the present. Sudden  
changes are bad and some of us  
might not survive. And, of course,  
slow growths are always best, and  
probably by next spring, when Dixon  
takes stock of itself in the right  
house-cleaning spirit, something very  
nice and up-to-date will be ready for  
operation.

## LANE AND BRANDEIS ARE COMMISSIONERS

PROMINENT OFFICIALS TO RE-  
PRESENT U. S. IN MEXICAN  
CONFERENCE.

## REACH AGREEMENT FOR MEETING

Carranza Willing All Subjects Be  
Discussed—Border Matters  
Come First.

(Associated Press)  
Washington, Aug. 9.—Secretary of  
the Interior Lane and Justice Brandeis  
of the supreme court have been  
selected as two of the American mem-  
bers of the joint commission which  
will undertake the settlement of diffi-  
culties along the Mexican border. The  
name of the third member will be  
made public later. The two govern-  
ments have reached an agreement for  
the discussion of their differences by  
the commission.

Washington, Aug. 9.—The Carranza  
government wants the border situa-  
tion taken up first by the proposed  
joint international commission, but  
is willing that other matters should be  
discussed later. Eliseo Arredondo so  
outlined the Mexican attitude to Act-  
ing Secretary Polk, who took the in-  
formation to the cabinet meeting. It  
was indicated that state department  
officials were satisfied with the situ-  
ation, and the appointment of Ameri-  
can commissioners might be ex-  
pected at any time.

Mr. Arredondo assured Secretary  
Polk that General Carranza's state-  
ment in his last note that the com-  
missioners preferably would discuss the  
subjects outlined in the original pro-  
posal, merely meant that preference  
would be given to the border situation  
but that other questions were not ex-  
cluded. He said also that he regarded  
the last Mexican note as one of  
complete compliance with American  
suggestions, and it was on that basis  
Mr. Polk took the matter to the cabi-  
net.

## FIVE MILLION HELD PRISONERS IN CAMP

GERMANY LEADS IN NUMBER—  
RUSSIANS TOOK 400,000  
IN LAST DRIVE.

(Associated Press)  
New York, Aug. 9.—More than  
5,000,000 prisoners are confined in  
the prison camps of the European bel-  
ligerents, according to Dr. John Mos,  
secretary of the international com-  
mittee of the Y. M. C. A., who re-  
turned today after a visit to camps of  
nearly all the countries. Germany has  
1,250,000 prisoners, Russia 1,500,-  
000, Austria 1,000,000, followed in  
order by France Italy Great Britain  
and Turkey. In their last drive the  
Russians captured 400,000.

## GOING AFTER BIG CONVENTION

Meet of State Association.

Circuit Clerk Rosecrans of this city  
left Tuesday for Pekin to attend the  
state convention of circuit clerks. Mr.

sociation and before leaving he stated  
that he would make a determined ef-  
fort to land the convention for Dixon  
next year.

## HUGHES VOICE GIVING TROUBLE

Was Very Hoarse—Specialist Warns  
the Candidate.

(Associated Press)  
St. Paul, Aug. 9.—Hughes, fatigued  
and with voice hoarse upon his arri-  
val here, was advised by the throat  
specialists to save his voice for the  
speeches here and at Minneapolis. He  
delivered a short address from the  
car at Winona.

Herbert N. Parker, son of Mr. and  
Mrs. E. W. Parker, has gone to the  
Plattsburg training camp at Platte-  
burg, N. M. He returned a few days  
ago from a summer term of school  
at the University of Wisconsin. He  
left Chicago on the special Pullman  
train that carried all of the boys from  
the west.

## Railroad Workers Refused Federal Arbitration Board

Declined Managers' Suggestion  
To Submit Matter To  
U. S. Agents

(Associated Press)  
New York, Aug. 9.—The Broth-  
erhoods this afternoon accepted the  
proffer of the Federal board  
of mediation and conciliation to  
mediate their differences and the  
threatened strike of 400,000  
employees has been averted.

New York, Aug. 9.—The National  
Conference of Railroad Engineers  
again rejected the demands of the  
four Brotherhoods for an 8-hour day  
and time and a half overtime, and  
proposed a submission of their dif-  
ferences to the Federal board of me-  
diation which is in session in a near-  
by hotel. A. B. Garretson, in behalf  
of the Brotherhoods, rejected this pro-  
posal. Chairman Lee of the board of  
managers, announced nevertheless he  
would appeal to the federal board.

Later the railroads appealed to the  
Federal board which then offered its  
services to the Brotherhoods. Al-  
though at noon the men had not re-  
plied, the indications were their reply  
would be favorable.

## WOMAN'S NERVE ON HIGH SMOKE STACK

MRS. GEO. SOMERS AWES THOSE  
WHO WATCH HER AT  
COLONY.

## STACK IS NOW 225 FEET HIGH

Visitors at the epileptic colony are  
greatly impressed by the daring of  
the steepjacks who are erecting a  
lightning rod and flag pole on the  
giant smokestack, which rises 225  
feet into the air. And the work of the  
human flies is the more interesting  
because one of them is a woman, as  
nervy and capable as her husband,  
George Somers, and his assistant,  
Paul Hall.

This is the sixth big contract of the  
kind they have done this season and  
Mrs. Somers has been "on the job  
all the time. At the colony they are  
stringing a 3/4-inch copper cable from  
the top of the stack to the ground,  
fastening it to the stack every five  
feet with a copper clip. The cable will  
be "grounded" in a charcoal recep-  
tacle.

8 p. m.—(a) Entertainment, Ed. R.  
Weeks and Co.  
9:30 p. m.—(a) Moving Pictures.

Every day the remainder of the  
session is a big day. Tonight will be a  
big night with two excellent musical  
organizations giving concerts. At 7  
o'clock the Dixon Chamber of Com-  
merce band will play a prelude last-  
ing one hour and at 8 o'clock the  
Metropolitan Grand Quartet will sing  
a full concert. Both concerts should  
be largely attended.

The quartet is pronounced the best  
organization of its kind this session.  
Don't fail to hear Mr. Lane, basso,  
impersonate a train dispatcher. This  
little stunt is well worth the price of  
admission. Come and hear him.

A large audience greeted Sidney  
Landon last night. His impersonation  
of literary characters was excellent.  
He brought from the past the charac-  
ters of Longfellow, Mark Twain, Ed-  
gar Allen Poe, Bill Nye and Hugo. He  
recited from the works of these noted  
writers. He won his audience from  
the beginning. Mr. Landon is a splen-  
did talker and somewhat of a humor-  
ist. He is a pleasant gentleman and  
one of the best entertainers on the  
platform.

The Metropolitan Quartet pleased  
with a thirty-minute prelude last  
evening. The hit of their entertainment  
was singing of "The Rosary," which  
was exquisitely rendered.

Mr. Helms gave two very interest-  
ing pictures.

Tonight Mr. Helms will show Mag-  
ic Dice; The Moros, and Bring Me  
Some Ice. The Moros is an excellent  
picture, which all should remain to  
see.

Clark Lectures Well.  
Dr. Henry Clark pleased a large  
audience this afternoon with his lec-  
ture, "Stop! Look! Listen!" He held  
his audience well and his arguments  
flow like chaff from a threshing ma-  
chine. He is a splendid speaker. In  
this famous lecture the wicked wastes  
of our civilization are reviewed. They  
are seen to be preventable to a great  
extent. Protest is entered against the  
policy of perpetuating conditions that  
cause trouble and trying to cure the  
trouble, instead of applying the Stop!  
Look! Listen! philosophy to prevent  
it. Appeal is made for the conserva-  
tion.

## GERARD TO DELIVER PRESIDENT'S LETTER

HAS ASKED A PERSONAL AUDI-  
ENCE WITH EMPEROR TO

(Associated Press)  
London, Aug. 9.—According to an  
Amsterdam dispatch Ambassador Ger-  
ard asked an audience with Emperor  
William to present the autographic  
letter of President Wilson outlining  
his wishes in connection with feed-  
ing the population of Poland. It is  
believed the letter is of high politi-  
cal importance, but is thought to  
make no mention of an offer of medi-  
ation. Gerard will probably join the  
emperor at the western headquar-  
ters.

There will be all kinds of sport and  
music by the lodge band during the

## CATTLE BARN BURNED TO GROUND

Sparks From Engine Caused Damage  
At Amboy Farm Home.

A large cattle barn on the Gilbert  
Finch farm in Amboy township was  
destroyed by fire between 3 and 4  
o'clock Tuesday afternoon when the  
sparks from a threshing engine at  
work on the place set fire to straw  
near the barn. The dry straw helped  
spread the flames and the workmen  
and neighbors were unable to prevent  
the destruction of the shed.

## GERMANS REGAIN POSITIONS

Take Some Ground In Thiaumont  
Work—Aerial Raid On  
England.

BULLETIN.  
(Associated Press)

Rome, Aug. 9.—The Italians have  
captured the city of Gorizia, Austria,  
and 10,000 Austrians have been made  
prisoners.

The success of the Italians has cre-  
ated a tremendous impression in It-  
aly.

An official announcement from  
Paris today says that after heavy  
fighting last night the Germans gained  
a further footing in Thiaumont  
work, but that the French held the  
outskirts. At the village of Fleury  
the French have made progress.  
Germans Frustrated.

On the Somme front the positions  
taken by the French north of the Hem  
wood during the past two days were  
attacked violently last night by the  
Germans, but their attacks were  
frustrated. The fighting continued.

## Aerial Raid On England.

London reports two German air-  
ships dropped bombs on various lo-  
calities on the east coast of England  
and the southeast coast of Scotland  
early today. Three women and one  
child were killed and 14 persons were  
injured. There was no military dam-  
age of importance.

Supplementing earlier announce-  
ment, London this afternoon stated  
that seven to ten Zeppelins partici-  
pated in the raid dropping 150 bombs  
and causing 23 casualties.

## Peronne Is Burning.

A dispatch from the great head-  
quarters of the German army says a  
conflagration, the result of French  
artillery and aircraft fire, has wiped  
out the famous old French city Per-  
onne. Already the fine collection of  
paintings by Italian and Flemish mas-  
ters have been torn to shreds by the  
shells, and it is stated it is doubtful  
if the St. John cathedral can be saved.

## Italians In Pursuit.

Rome says the Austrians, pursued  
by the Italians, abandoned all their  
positions on the Isonza and Carzo  
fronts, following the capture of Go-  
rizia bridge by the Italians.

## Russ Take Prisoners.

Petrograd claims the Russians oc-  
cupied Tysemenetha in Galicia, Aug.  
7, at which time Gen. Letchitzky's  
army took 7500 prisoners including  
3500 Germans and 63 machine guns.

George H. Sampson of Peoria, who

"We left your beautiful city forty-

social and fraternal relations with our  
Dixon friends, though many changes  
have come to us with the years and

#### ELEVATORS.

An elevator is a sort of passenger rocket by which a person can be taken off the earth and into a cooler mate 49 stories above in less time than it would take him to climb up the flights of stairs and mop his forehead twice.

The elevator was invented in America, which also produced the quick-acting counter, the revolver and other time savers, and it has enabled man to colonize the air. Half a century ago nobody lived more than 70 feet above the ground. Nowadays men do business happily 700 feet above the ground and discharge their office duties for stealing eagles' eggs from the fire escapes instead of attending to business.

Some elevators travel 300 feet a minute, making stops at all stations, while others run express to the three-seventh floor at the rate of 600 feet a minute, the passengers' vital organs following slightly behind. By taking a local up four floors and taking an express down to the city proper, a hurried financier can leave his office in the sunshine, slide down through a thunderstorm and borrow an umbrella from a friend on the side walk in less than a minute.

Elevators are run by men and boys, who are kept so busy that they do not have time to take tips. This accounts for the enormous popularity of the ingenious contrivance in this country.

Elevators occasionally fall, but not as often as aeroplanes or brick houses. They are not as dangerous as street cars or instantaneous water heaters, and nobody minds them in this country. However, they are regarded with great terror in Europe and are used only as a last resort. An Englishman runs an elevator as if he were moving a barn, and only the leisure class can find time to ride in them.

Elevators have increased the joy of the American business man by taking him above the fly line, the dust line, the noise line, the book agent line and the skyline. They are about the only free thing left in America. The New Yorker who hasn't the price of a ticket to Coney Island never need despair so long as he can climb on an elevator and travel so high in two minutes that he can see half way back to his old western home.

### FARMERS' JOURNAL IS STRONG FOR LOWDEN

EDITORIAL COMMENTS CANDIDACY OF THE MANAGER OF MISSISSIPPI.

### NEED FARMER FOR GOVERNOR

The Daily Farmers' and Drovers' Journal comments Col. Lowden's candidacy for Governor in the following editorial:

Agricultural interests of Illinois have long been without proper representation or consideration in administration circles. The leading industry of the state has lagged in progress because men who have been in executive office have apparently felt it could well take care of itself.

Today the belief among farmers and livestock men is that service in their cause can come in best manner from those who know best how to serve them and whose interest in agriculture is not merely sympathetic but obviously so, but material.

Col. Frank O. Lowden, owner of Mississippi farm at Oregon, practical farmer and livestock man, whose name has become well known to farmers and stockmen, and whose activities in the industry have been of upbuilding results, has come out for the governorship nomination on the republican ticket. Col. Lowden is competing his candidacy with the purpose in mind, he says, of putting into practice a really constructive work reflecting agriculture in this state.

Is Ready To Work.

He has put his energy in seeking the nomination with full knowledge that in event of success he will have fought upon himself a few years of the hardest work any man can be called upon to perform, yet it is with deep cognizance of the arduous duties ahead that he has taken the step.

Farming and livestock raising are his chief interests. He knows well the intricacies of these businesses. He declares he fully appreciates what will be expected of him in that regard and is seeking office with the idea in mind that success therein cannot be attained without constructive agricultural work.

Col. Lowden's efforts have been instructive. His course offers strong assurance of further endeavor to help the industry. Entering the arena as a candidate for governor, he will have a wide following of earnest supporters among farmers and livestock men who believe that his success will mean better conditions in the business of farming.

He has put his energy in seeking the nomination with full knowledge that in event of success he will have fought upon himself a few years of the hardest work any man can be called upon to perform, yet it is with deep cognizance of the arduous duties ahead that he has taken the step.

Farming and livestock raising are his chief interests. He knows well the intricacies of these businesses. He declares he fully appreciates what will be expected of him in that regard and is seeking office with the idea in mind that success therein cannot be attained without constructive agricultural work.

Col. Lowden's efforts have been instructive. His course offers strong assurance of further endeavor to help the industry. Entering the arena as a candidate for governor, he will have a wide following of earnest supporters among farmers and livestock men who believe that his success will mean better conditions in the business of farming.

### NEED FARMER FOR GOVERNOR

The Daily Farmers' and Drovers' Journal comments Col. Lowden's candidacy for Governor in the following editorial:

Agricultural interests of Illinois have long been without proper representation or consideration in administration circles. The leading industry of the state has lagged in progress because men who have been in executive office have apparently felt it could well take care of itself.

Today the belief among farmers and livestock men is that service in their cause can come in best manner from those who know best how to serve them and whose interest in agriculture is not merely sympathetic but obviously so, but material.

Col. Frank O. Lowden, owner of Mississippi farm at Oregon, practical farmer and livestock man, whose name has become well known to farmers and stockmen, and whose activities in the industry have been of upbuilding results, has come out for the governorship nomination on the republican ticket. Col. Lowden is competing his candidacy with the purpose in mind, he says, of putting into practice a really constructive work reflecting agriculture in this state.

### MOTHER OF FOUR CHILDREN

How Lydia E. Pinkham's Vegetable Compound Kept Her Well and Strong.

Lincoln, Illinois.—"I have used Lydia E. Pinkham's Vegetable Compound for ten years with good results and I have four healthy children. This summer I was in a very run down condition and the very hot weather seemed more than I could stand, but I commenced taking your Compound in June and from then until September 25th, when my last baby was born, I got along much better than I had before. My baby was a girl and weighed 11 pounds at birth, and I recovered very rapidly which I am sure was due to your medicine. I am well and strong now, nurse my baby and do all my work. I had the same good results with your medicine when needed before my other children came and they are all healthy. My mother has taken your medicine with equal satisfaction. She had her last child when nearly 44 years old and feels confident she never would have carried him through without your help, as her health was very poor."—Mrs. T. F. CLOYD, 1355 North Gulick Ave., Decatur, Ill.

Expectant mothers should profit by Mrs. Cloyd's experience, and trust to Lydia E. Pinkham's Vegetable Compound.

### "RAMONA" COMPLETE IN ITSELF.

When "Ramona," the wonderfully realistic cinema operatic spectacle made from Helen Hunt Jackson's beautiful story, is presented in Sterling at the Academy of Music for three nights, starting Monday, August 14th, matinee Tuesday and Wednesday, the only thing furnished by manager George S. Olmstead will be the theatre and the tickets, as all other essentials are carried by the company. The musical score, the musicians to interpret it, the screen on which the film passes, an expert operator to insure perfect projection, all these are provided by the far-seeing management, who spare no pains to make "Ramona" an experience long to be remembered with delight by its connoisseurs. The appealing romance, the ever changing panorama of color in the life of the Mission Indians, the tragic injustice of Alessandro's death and the wonderful scenery of far famed southern California, all combine to make an entertainment which marks a new era in the realm of motion photography.

"Ramona" was produced and is exhibited by the Clune Film Producing company of Los Angeles, who had an important part in the production and success of "The Birth of a Nation."

### Needlework Notes

There is a practical cork bag that any housekeeper would appreciate. It would also make a valuable addition for the bazaar table. It is fashioned of a straight piece of material, cretonne, heavy crash, even as in one case, from a strip of broadcloth, the other materials would be more serviceable. It is gathered at the top by silk cords thru a narrow casing, and on the ends of the cords as tassels dangle small corks to show the purpose of the bag and to give unique ornamentation. Probably the most appreciated part of the bag will be the cork screw attached in tassels fashion to the bottom of the bag by means of a clasp like that on the end of a watch chain. The cork screw will always be in place if snapped back to the bag after using.

A dancing bag deep enough to hold slippers, gloves and vanity outfit, is of peach pink pussy willow silk, drawn up at the top on pale blue ribbon, and lined with pale blue satin. There are two frills of lace, one near the bottom and one midway of the bag's length, each frill put on under a tiny line of

### PEOPLE'S COLUMN.

To the Public:

A story has been circulated around town that I had stopped the ice wagon from delivering ice on Sunday. I want to say for the benefit of those that believe this story that it is absolutely false. But I did stop a beer wagon or truck from delivering beer a week ago last Saturday, about 8:40 o'clock for the reason that we have an ordinance that prohibits the delivery of any intoxicating liquor between sunset and sunrise (or on Sunday) and this perhaps is the reason that the story about stopping the ice wagon was manufactured.

### URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

#### FOR THE HOUSEWIFE

Tea leaves moistened with vinegar remove the discoloration in glass caused by flowers.

To remove mud from clothes scrape with the edge of a penny. This will not destroy the nap of the cloth as will a sharp knife.

If your wash boiler should rust make a lining of unbleached cotton to it. Use cover to cover pattern of bottom pieces. This is a splendid way to keep clothes from getting spots of iron rust on them.

After cooking onions cabbage or fish try this plan: Wash and dry the pan, then place a piece of thick brown paper on the stove, set fire to it and turn the saucepan over the blaze. After a few minutes remove it and the odor will not be noticed.

Tie a narrow ribbon bow just above the handle of your umbrella. Leave one loop long enough to slip over your arm when you are shopping. This is a good way to avoid losing your favorite umbrella.

Photographs that have become soiled or are mounted on cards the edges of which are broken, may be soaked off by placing them in water. This cleans them, but does not injure them in the least. After drying thoroughly between blotters, they may be mounted again on new cards.

Crocheted articles of wool can be successfully cleaned by keeping them in a pillow case during the process of washing. Plenty of warm water and soap must be used, abundance of warm rinsing water and the pillow case, with contents still untied, hung on the line on a bright windy day.

Rubber bands are useful in keeping sleeves out of the way when doing housework.

Bread boards must be scrubbed with sand or salt instead of soap in order to be kept in good condition.

The ideal duster is a large chamomile skin soaked in cold water, then wrung dry. It can be used on the finest furniture and will leave a clean surface.

Save old toothbrushes to use in cleaning engraved silver or to apply paste blacking to shoes.

Spread newspapers on your newly scrubbed kitchen floor. They will save foot marks, if the floor must be stepped on before it is dry.

#### Rainy Day Pastimes

Of course, at first, children have their own resources—their dolls, blocks, games and books—but if day after day the rain won't go away, and they come to us with "Mamma, what shall we do now? We are tired of everything," how shall we answer this demand.

It is to be hoped that we have put away for just such a time, in the back part of some mysterious bureau drawer, a box of crayons or a set of colored pencils.

There is hardly a house in the land where illustrated papers and fruit and flower catalogs have not found their way. Bring these and your colored pencils to some convenient table. Let each child choose his or her picture or flower, or lady's dress.

With the colors in the middle of the table where all can reach, let them do their best to color their pictures. You will soon find that the day is no longer a gloomy one for the little company.

The accuracy of touch and steadiness of hand which this work cultivates cannot fail to be of use. There is one great advantage in this amusement, in which it differs from any others—children of all ages can join in it, and the older, by their more perfect skill, are all the time aiding the younger without feeling it a burden.

If the children tire of coloring let them try tracing. Tracing paper is much more satisfactory for this than ordinary tissue paper, which, however, can be used. By placing your tracing paper on some distinct picture, some one figure very clear and simple, for a beginning, the little fingers can very soon learn to follow the lines accurately and really make a picture themselves. We all know that to make something himself is the ambition and delight of almost any child. It satisfies his desire for independence.

August 8, 1808—Governor Josiah  
A. Matteson was born in Water-  
town, New York.

August 9, 1812—Captain Healy,  
commander at Fort Dearborn, re-  
ceived orders to evacuate his post, owing  
to General Hull's fear that the  
fort at Chicago could not hold out  
against the British, who had already

HAS DIXON NAT. BANK  
NOTE ISSUED IN 1871

D. H. LAW POSSESSOR OF INTER-  
ESTING CERTIFICATE OF  
LOCAL BANK.

## SOME INTERESTING HISTORY

The exhibition of one of the first  
one-dollar notes issued by the Dixon  
National bank by D. H. Law, who  
prizes it greatly, brings to mind some  
interesting history of the institution.  
The note was issued Oct. 10, 1871 and  
was signed by H. B. Jenks, president,  
and Henry S. Lucas, cashier. At that  
time the bank was located at the site  
of the present Kline jewelry store.

The first meeting of the stockhold-  
ers of the Dixon National bank was  
held in the office of Judge James B.  
Charters on Wednesday, Sept. 12th,  
1871. There were present at the meet-  
ing: Henry B. Jenks, Henry S. Lucas,  
John Dement, Wm. Kennedy, James  
B. Pomeroy, P. M. Alexander, Jacob  
Armstrong, John Bennett, Oliver Ev-  
erett, Quatrus Ely, James B. Cas-  
sady, Benjamin F. Shaw and J. M.  
Patrick.

Henry B. Jenks, Henry S. Lucas,  
John Dement, Quatrus Ely and Judge  
J. B. Charters were chosen directors.  
In 1872 F. A. Truman was elected to  
fill the vacancy of Quatrus Ely, re-  
signed as director.

Henry B. Jenks was elected pres-  
ident, Col. John Dement, vice pres-  
ident and Henry S. Lucas, cashier.

In a published statement on Feb.  
27, 1874, the bank's resources were  
\$238,373.77; in the last statement,  
published June 30, 1916, they were  
\$1,989,127.05. The deposits in 1874  
were \$15,500; on June 30, 1916, they  
were \$1,160,110.

## ALL-YEAR SCHOOL APPROVED

Uncle Sam's Educational Experts Find  
Good Results Obtained Where  
Plan Has Been Tried.

Uncle Sam risks incurring the en-  
mity of the future voters of the coun-  
try by putting his "O. K." upon the  
plan for all-year schools which has  
been tried out in Newark, N. J. W. S.  
Deffenbaugh, specialist in city school  
administration of the bureau of educa-  
tion, department of the interior, in a  
special report, commends the system  
as it has been worked out in Newark.  
Mr. Deffenbaugh finds that time is  
saved, street loafing is largely pre-  
vented and health is conserved by elimi-  
nating the long summer vacation.

The strongest statement in the re-  
port is that the children in the Newark  
schools themselves speak enthusiastically  
of the plan.

It was found that the pupils in the  
all-year schools not only made more  
rapid progress through the grades, but  
maintained as good scholarship as the  
pupils in other schools. Many of the  
pupils were able to enter high school  
as a result of the time gained in the  
all-year school, and these pupils have  
had no difficulty in keeping up with  
their work. It is expected that many  
more pupils will now complete the ele-  
mentary grades at twelve years of age,  
enter high school and attend for at  
least two years. Once in high school,  
they are likely to remain even after  
the compulsory age limit is passed.

ITALIANS KEEP  
UP THEIR GAINS

Key to Goritz Is Captured,  
Fall Imminent.

8,000 PRISONERS ARE TAKEN

(Continued from Page 1)

British Are Checked.  
Berlin announces the British and  
French attacks north of the Somme  
have been checked with heavy losses  
to the enemy. 400 British and 6 ma-  
chine guns have been taken.

Petrograd announced this afternoon  
that the Armenian towns Bitlis and  
Mush had been given up the Russians  
owing to Turkish pressure.

Rome, Aug. 9.—Italian troops have  
scored their greatest victory since the  
opening of the Austro-Italian war. Of-  
ficial announcement was made that  
the Goritz bridgehead where the Aus-  
trians have defended themselves with  
the greatest stubbornness for more  
than a year has been captured by Italian  
troops. At the same time it was  
announced that Monte Sabotino and  
Monte Sr. Michels, scenes of almost  
equally bloody fighting and strongly  
fortified Austrian positions, have fallen  
before the new Italian offensive on the  
Isonzo.

The position lies on the Carso  
Plateau barely five miles southwest of  
Goritz.

Italian artillery is now shelling  
Goritz itself and is driving the en-  
emy out of houses just west of the city.  
It was officially announced. The fall  
of the fortress is considered by Italian  
military officers to be imminent.

Behind the Goritz bridge head lies  
the Austrian fortress of Goritz, which  
has held up the Italian advance to-  
ward Trieste since the beginning of  
the war. With the bridgehead in their  
hands and Monte Sabotino and Monte  
Sr. Michels taken from the Austrians  
the Italians now seriously threaten  
the great Austrian stronghold.

Monte San Michels itself was one of  
the strongest Austrian positions on the  
Isonzo. From trenches of concrete  
and armored steel Austrian machine  
gunners for months have beaten off  
Italian attacks on San Michels, inflic-  
ting frightful losses on the attacking  
forces.

Official reports give the number of  
prisoners taken by the Italians at over  
8,000 including 200 officers.

Italians Shell Hospital.

Berlin, Aug. 9.—The official Aus-  
trian report of Aug. 6 says: "Italian  
front: The hospitals maintained by  
monks at Goritz were destroyed by  
Italian shell fire and several persons  
were killed."

Daddy's Bedtime  
Story—

How the Dustman  
Took Halmar  
To a Wedding.

They Sat Upon the  
Floor.

[Adapted from Hans Christian Andersen.]

"AREN'T we going to have any story tonight?" asked a little boy, Halmar, as soon as Ole Shuteyes lay down on his bed. "This is the way daddy began the bedtime story for his own children, Jack and Evelyn."

"How would you like to go to a wedding tonight?" asked the dustman. "Your sister's big doll, Herman, is going to be married to a nice rag doll, Bertha. It's a good opportunity for your sister to get both her dolls some new clothes."

"My sister has done that a hundred times," said Halmar.

"Yes, but this is the hundred and first wedding and is sure to be grand."

Ole Lukole, the dustman, answered, "Just look!"

"Halmar glanced at the nursery table, and there stood a little pasteboard house with lights in its windows and all the tin soldiers presenting arms outside. Inside the bridal pair sat upon the floor leaning against a table leg. Then Ole Shuteyes, dressed in a black silk skirt, married Herman and Bertha, and when the wedding was over all the furniture joined in singing a pretty song written by the lead pencil."

"Shall we go to the country or travel abroad?" asked the bridegroom. Then he and Bertha consulted the swallow, who is a great traveler, and old Mother Hen, who had reared five broods of chickens.

"The swallow told the bridal pair all about the delightful warm countries where grapes grow in big clusters and the mountains take on wonderful colors. 'But they haven't got our green cabbages!' cried the hen."

"Once I was in the country with my chicks. There was a gravel pit that we scratched in all day, and then we got into a big garden where cabbages grew. Oh, how green it was! I can't imagine anything more beautiful."

"One cabbage looks just like another," said the swallow. "And the weather here is apt to be bad."

"But we're used to that," said the hen. "Cold is good for cabbages. Most all mountains have robbers in them, and any one who does not think ours the nicest country in the world doesn't deserve to live here. Once I traveled twelve miles in a barrel, and there was no pleasure in it."

"The hen is a wise woman," said Bertha, the bride. "I don't like traveling in mountains, either, for first you go up and then you go down. Herman, let us move out by the gravel pit, where we are safe, and take our walks in the cabbage garden." And, like all loving bridegrooms, Herman did as his bride wished.

## Gossip Of The Campers

Amos Helms, moving picture man, here.

George Reedy, chairman of the amusement committee says there must be another croquet ground next year. And he is in favor of reviving the old "stunt-fest" entertainment. George received a box of cigars by mail and the chief of the press bureau is getting his share of good smokers.

Mr. and Mrs. Holsinger are very busy getting the boys and girls in shape for the entertainment to be given Saturday night by the Boys and Girls' Physical culture classes. The program will be ready in a day or two. This entertainment promises to be one of the best this season and it is one of the evenings that is looked forward to with considerable enjoyment by the little folk of the assembly and of Dixon. The boys and girls met this morning at 8 o'clock for a general workout at the auditorium.

A. T. Scone and wife motored from Rockford Tuesday to get the Dunne and Brinton speeches for a Gov. Dunne made a few friends Chicago paper.

William Beers of Chicago, vice-president of the National Lincoln Chautauqua System, is a visitor at the Assembly.

The young ladies from Sterling in camp here are entertaining several of their Sterling friends.

As the session draws near the campers are beginning to feel sorry they found this session very interesting.

The Assembly management made a decided hit when they fenced off Mound Avenue. And the auto owners are not complaining one bit.

Everyone on the grounds are complimenting Col. Brinton for the manner in which he introduced his rival at the park Tuesday afternoon.

ROCHELLE COMES FOR  
GAME AUGUST 20

CRACK SEMI-PRO TEAM TO MEET  
DIXON A WEEK FROM  
SUNDAY.

## HOGON WITH THE OROLES

A week from Sunday the Dixon Browns will meet the Rochelle Orioles in this city. Rochelle has a very fast team and has defeated some of the best semi-pro teams in the state, including the Chicago Mutuals.

Rochelle has some good players on their team this year, including "Stub" Hogan of this city, who has been hitting third in the club throughout the season, with an average of .290, and according to "Stub" Dixon can't beat Rochelle. The Dixon management has been trying to get a game with Rochelle for some time but the Rochelle manager was so inflated with conceit that he told the Dixon club to get a reputation, and consequently the Dixon management has obtained a crack team of players for the shortstop and second base positions. Huber and Lightner will do the pitching and "Peg" Schultz will act as receiver. It may be of interest to know that Rochelle has never defeated either Huber or Lightner, and according to these gentlemen they never will. Two weeks from Sunday Dixon begins a series of games with Oregon, greatest rival of Rochelle, and the first game will be played in this city.

MISS AMANDA PREUSS OF SAN  
FRANCISCO IN UNIQUE

## TRAVELS ALONE IN AN OLDS

Will Stop at Old Service Station at  
Wilson Garage in this  
City

National Touring week. There is a great deal of meaning in this one short sentence. It stands for an institution established in the interest of the automobile owner and good roads. The automobile has brought about good roads, and good roads plus the highly efficient machine of today has brought the East nearer to the West and the North closer to the South. In other words National Touring has developed the country because it has made everybody neighbors.

This week is being celebrated in many ways in as many places, but one of the most important and interesting features will be the celebration that has been scheduled by the Oldsmobile Company.

## Lincoln Highway Paramount

The Lincoln Highway is now paramount in the interest of the touring public. Many trips have been made over this route when the road was not in as good condition as is now the case, but to prove that the modern motor car and the Lincoln Highway have made touring safe and sane, the Oldsmobile Company is sending Miss Amanda Preuss of Sacramento over the course from San Francisco to New York City. She has no one in the car with her during the entire trip and will take care of all details that naturally fall to the lot of those who are making long transcontinental trips.

The car in which she is making the trip is one of the 1916 Oldsmobiles, of the roadster type, absolutely stock, with the exception of a spot light and a coat of battleship gray paint. The powers that be of the Oldsmobile factory and of the Western Oldsmobile Company hope that the trip on the part of Miss Preuss will definitely prove to all that there are no longer terrors to be encountered via the transcontinental route. The United States has never been properly exploited by automobile touring, and this is just another way of developing the idea of "See America first."

## Touring Popular

Automobile authorities of this country firmly believe that the time is not far distant when it will be possible to drive from San Francisco to New York all the way over smooth and comfortable roads. At the present time hardly a week goes by without some car checking in after crossing the country from the big city on the Atlantic coast. However, most of these trips are looked upon in the light of feature stunts. For this reason the Oldsmobile Company is sending Miss Preuss over the road alone in her car in order to stimulate interest. The automobile is absolutely an institution in this country, therefore this mode of transportation should be given enough definite tests to prove satisfactory that it should not be confined to one state or any given district.

## Proof Enough

For a woman to drive to New York from San Francisco should give this proof; it should also show that the day of mechanical perfection is past. The "Olds" is a standard car, and for this reason is expected to make the trip without any adjustments and very likely without any tire trouble.

On Monday afternoon Mayor Rolph of San Francisco met Miss Preuss on the high steps of the City Hall, with Joseph Caine, Lincoln

VENIZELOS LEADER OUSTED

King Lets Out Aide Who Invented Famous French "75."

Athens, Aug. 9.—General Panyotis Danglis, former minister of war, chief of the general staff during the first Balkan war and credited with being one of the inventors of the famous French three-inch guns, has been removed from his post as royal aide-de-camp by King Constantine.

General Danglis was minister of war in the Venizelos cabinet of 1915, which resigned on Oct. 5, of that year. An Athens dispatch on July 24 told of his election as president of a league formed by adherents of former Premier Venizelos to counteract the effect of anti-Venizelos leagues among the demobilized Greek reservists.

Columbus, O., Aug. 9.—That the second German merchant submarine Bremen is in possession of the French navy is the information received by Lieutenant J. G. McElroy, United States army officer, from a relative in the British army.

Lieutenant McElroy is stationed here with the Ohio national guard. Lieutenant McElroy has just received a letter from this relative, who is at Folkestone. The letter declares that the Bremen was captured on its outward trip to the United States.

Gary, Ind., Aug. 9.—Mayor R. O. Johnson ordered local ice dealers to sell 4,000 pounds of ice daily at cost to Gary mothers with children, and stationed police at plants to enforce the order. Johnson's action followed the announcement of the dealers that the price of ice had been increased to \$1.50 a hundred pounds on account of an ice shortage.

Plans are being laid for the establishment of a municipal ice plant.

Detroit, Mich., Aug. 9.—Custody of her two children, Donald, Jr., and John, kidnapped from her by their father, Donald J. O'Donnell, three years ago in Chicago, was awarded Mrs. O'Donnell on a writ of habeas corpus. She immediately returned to Chicago with them.

RULES FOR SANE LIVING

External inactivities cause internal sluggishness. In the past to cure sluggishness of the system medicines have been used. But today scientists of all schools recognize that fact that medicines do not remove the cause of the trouble. Sane living and proper exercises and diet remove the cause and remake the troubled one.

If you wish physical vigor and health, if you wish mental power, if you wish to radiate vitality and keenness of body and mind not only for the way it makes you feel but for the way it makes you look and makes others feel, for the efficiency of service it places within your power, and if you cannot find the time to get out of doors and indulge in good, sweat producing, muscle stretching games and sports, then take the only other alternative and exercise at home each day. Give five minutes to health and it will be surprising how soon the results will begin to tell.

After a week of exercising regularly the exercises will become as necessary to your comfort as your bath or toothbrush. The day of the liver pill is past; Nature is the great doctor of today. If you follow Nature's dictates you will not only be well but you will find that your personality will improve with your health. You will have found the Fountain of Charm.

Recipes

Chicken Croquettes—Melt in a double boiler on tablespoonful of butter, and add the same amount of flour; when it is foamy stir in one half cupful of cream, and one half cupful of chicken stock; stir constantly until smooth and thick, then season with salt and pepper to taste, remove from the stove, and stir in two well beaten eggs and one pint of chopped, cooked chicken. When the mixture is cool, form into egg shaped croquettes, and fry a golden brown in deep fat. These are pretty served in nests made out of yellow celery tops.

Escalloped Lamb—A layer of cold boiled potatoes sliced, a layer of chopped lamb, butter, pepper and salt, then potatoes and lamb until the dish is full. Pour over hot milk and bake in oven. This makes a very nice dish for supper on a cold night. Even potatoes escalloped with cut meat are very good, but stir in a little flour with the milk so it will not be thin. Did you ever toast potatoes? Slice cold boiled potatoes lengthwise so the slices may be handled better and put them on the toast iron. It takes longer to toast them than it does bread because they are damp. Let them brown and eat them hot with butter and salt. You can also make a very nice pea soup from your lamb bone after the meat is off. Two quarts of cold water, one cup split peas, one onion, celery leaves or celery seed, salt and pepper and the lamb bone. Cook half a day slowly, then mash the peas thru a strainer and wet up one tablespoon of flour and stir into the soup; then repeat, and I think you will find this a very palatable supper dish.

ILLINOIS GROWING IN ALL INDUSTRIAL LINES

Population of State July 1, 1914, Was 5,987,000.

Washington, Aug. 9.—A preliminary statement of the general results of the census of manufacturers for Illinois has been issued by Director Sam L. Rogers of the bureau of the census, department of commerce. It consists of a summary comparing the figures for 1909 and 1914, by totals, prepared under the direction of William M. Steuart, chief statistician for manufacturers.

The figures are preliminary and subject to such change and correction as may be found necessary from a further examination of the original reports.

The population of Illinois at the census of 1910 was 5,638,591, and it is estimated that it was 5,987,000 on July 1, 1914.

The summary shows a consistent increase at the census of 1914, with the exception of number of proprietors and firm members. In the order of their importance, from a percentage standpoint, the increases for the several items rank as follows: Salaries, 40.5 per cent; primary horsepower, 28.9 per cent; capital 25.6 per cent; wages, 23.4 per cent; salaried employees, 22.1 per cent; value added by manufacture, 19.2 per cent; value of products, 17.1 per cent; materials, 15.7 per cent; wage earners, 8.8 per cent, and number of establishments, 2 per cent.

WORK AND VOTE FOR

HULL

Independent—Courageous—Efficient

Morton D. Hull is a man with a personal, as well as a public, conscience. His record proves it. So in this crisis in Illinois he looms large as the unbossed Republican leader for governor. No man will hold Hull's proxy. Remember how Mr. Lowden as National Committeeman graciously gave his proxy to Mr. Lorimer, then under fire, sending Mr. Lorimer to represent Illinois in the high councils of the party.

For 20 years Senator Hull has fought for social betterment—both as a private citizen and as a public servant. Many know of his 10 years' official record, yet few realize how much he has accomplished for social settlements, Y. M. C. A's, churches, good government leagues and public institutions. He has been willing to put in long hours daily—year in and year out—to better conditions for humanity. Hull is always on the job—not an absentee politician, ever ready for a vacation or a trip abroad.

DON'T LET THE "JACK-POT" CROWD GET IN

Senator Hull's long schooling in public life has been up the ladder—rung by rung. He won his promotions. Nothing has been handed to him on a silver platter. Who can say all this of his opponents? Which candidate can dare to parallel Hull's labors for his State? Note the character of some of the men opposed to Hull. The "Jack-Pot" crowd, the "Bath Room" legislators, who "put over" Lorimer, the "Slush Fund" spoilsmen, the "Allen Bill" backers—these men are working for Hull's opponent.

Hull is not a mere ornamental citizen nor a title seeker—he's a worker—not a pampered shirker. In the commercial world he has built a large industry. Think of the peril of having an indifferent figure-head instead of a real governor such as Hull will be. Think of the sinister results of an inexperienced governor steering the State—intent only on awarding spoils and avoiding necessary work. Illinois needs a governor with a backbone.

Senator Hull has won his honors as the "Watch-dog of Legislation"—he has been singled out by other forward-looking men, because of his deeper experience—his real workmanship. The progressive Committee of Cook County was quick to see in him a real worker. So they adopted unanimously a resolution to support him.

A Fighter for the People

Has any other candidate a record for saving the people's money? Remember, Senator Hull secured the passage of the Anti-Graft Law, requiring the State Treasurer to turn over to the State the interest on Public Funds. Already this act has brought the State \$576,676.50.

Senator Hull was the chairman and leader of that valiant group in the Illinois House who became famous as "The Band of Hope." Their untiring fight put through the Direct Primary Law in Illinois in 1908. Reactionary interests opposed to Hull then, are opposing him now.

Study Senator Hull's record. It will stand a scrutiny that few would welcome. See how Hull led the fight for Direct Primaries, for Civil Service, for shorter hours of employment for women, for the Workmen's Compensation Act, for curbing the loan sharks, for dozens of other constructive, new-day measures.

The people of Illinois must arise and overwhelm the Thompson spoilsmen and the dangerous bi-partisan jack-pot crowd. Efficiency must prevail. Old disgraces must vanish. Political gangsters must go. The "good old days" of graft must not return. So thinking people all over the State are rallying to Senator Hull. In his personality and his record they see a new future for Illinois.

You Want Such a Man

Come, face the crisis bravely. Back Hull. But you must act quickly. The Illinois primary isn't far off. Join the fast growing preference for Hull. Such leadership as Hull's is badly needed. The enemies of good government are hard at work—underground tactics unknown to the public.

The Thompson raiders—having prostituted Chicago's civil service system—now seek to gain control of the State jobs by defeating Senator Hull. Thus they hope to open a new free employment bureau for their henchmen. They look greedily at the State Institutions at Kankakee, Lincoln, Alton, Elgin, Peoria, Watertown, Jacksonville, Danning and Anna. Remember Dr. Sach, and his vain fight to save the Municipal Tuberculosis Sanitarium of Chicago from political ghoul's.

You can help to save Illinois. Name Senator Hull for Governor and protect your party and your State. Join the ranks fighting for clean, constructive Republicanism. Don't let the syndicated gangsters win through your lack of interest. Act! Work! Vote! If you want to do your bit for this movement, send us your name and address now.

Heard At Nations Capital

The prospect of an early adjournment of Congress has again gone glimmering. At one time the hopeful—as distinguished, perhaps, from the deservng — democrats thought they might get through in June. Then they advanced the date to July. Later, with the co-operation of the republicans, it was believed the last week of August would see the end of the session. Now it appears that the "little navy" men of the house are rebellious because of the additions which the senate has made to the naval building program and that there will be a merry row in attempting to secure the Kitchins, et al, for the support of the measure as it now stands. In addition, the revenue bill has not yet been taken up in the senate, and at that end of the capitol there are rumors that many of the bill's provisions are to be so thoroughly re-cast that another contest between the two houses will be inevitable. In consequence the dopesters at Washington now think it may be October before congress can adjourn. The situation is not without its benefits, however. It furnishes another item in the recapitulation of the numerous proofs that the democratic party does not know how to run the government.

An Indiana democratic leader is advising his fellow partisans to acquaint themselves with the details of what the administration has done. The administration on the other hand is wishing that most people would forget it.

None of Secretary Redfield's famous bulletins which chronicle the decrease in the cost of living under democratic rule have said anything about the price of islands, which is now shown to have been considerably enhanced. In 1902 Roosevelt made a trade for the Danish West Indies at \$5,000,000, while now Wilson has agreed to pay \$25,000,000 for these same islands.

From the mountain top, not from the bottom of the valley. This is the view-point of political problems that Mr. Hughes says republicans should take. It is an opposite figure. Hughes is himself a mountain climber and his nomination has taken his party to the point whence the promised land can be clearly seen.

Senator Curtis of Kansas, on the basis of present figures, reckons that the number of failures for 1916 will be a record-breaker. And as we understand it the senator is not including Wilson's failure to make good.

Needlework Notes

Embroidery hoops play quite an important part in mending nowadays. If a blouse has worn, place a patch underneath and place the part to be mended in a pair of small embroidery hoops. Then neatly darn the blouse to the patch. The hoop will hold the work taut and it will present a much neater appearance when finished than if the work were stretched over the fingers.

"Handsome is as handsome does," so for the homely, the much used, whisk broom, a fitting resting place should surely be found. A lovely case for one is made of cretonne with scalloped edges, initialed and finished in style. The stiff back is merely of pasteboard whose cretonne covering is fastened with small gold headed tacks. The whole is topped with a dainty ribbon banner which prepares it in all elegance for its convenient place in milady's boudoir.

## LEMBERG'S FALL SEEN IN ORDER

Civilians Ordered by Governor to Leave City.

### RUSS GAIN ON 15-MILE FRONT

Sweep Teutons Back South of Dniester—Capture Town of Tlumach and Ridge of Heights East of River. 8,415 Prisoners Are Taken—British Win and Lose.

London, Aug. 9.—A proclamation foreshadowing the surrender of Lemberg, capital of Galicia, was issued by the governor of the city on Aug. 4, says an Exchange Telegraph company dispatch from Bucharest. On the same date, the dispatch adds, the evacuation of the city by the civilian population was ordered.

The proclamation declared the Austrians would return shortly to wrest Lemberg from the Russians.

The Russians have renewed their attacks on the Caucasus front, west of Erzingan. An official Turkish statement, received here and dated Aug. 5, says the Russians gained a footing in the Turkish lines, but were driven out after heavy fighting.

Russians Take 15 Miles.

Petrograd, Aug. 9.—South of the Dniester, in the direction of Tyszenica, the Russians have driven the Austro-German forces back along the whole line for a breadth of fifteen miles, it was officially announced by the Russian war department.

The announcement adds that the Russians have captured the town of Tlumach, as well as the region to the east of the Dniester river and the ridge of heights there.

Russian cavalry, it is stated, is now pursuing the Austro-Germans southwest of the Kolomea and Stanislaw railway in Galicia.

The total number of prisoners taken by the Russians in the battles on the Sereth river on Aug. 5 and 6, the official statement adds, was 166 officers and 8,415 men. The Russians in this region are advancing.

British Win and Lose.

London, Aug. 9.—With an advance by the British of a quarter of a mile through the German positions southwest of Guillemont, and the loss of fifty yards of trenches to a German assault northwest of Pozieres, the most desperate fighting of the day centered on the northern sector of the Picardy front. Simultaneously at Verdun the battle which has raged for more than a week, with the French generally in the ascendancy, turned against them in the region of Thiaumont, where the Germans after desperate fighting gained a new foothold in this stronghold.

Early Returns in Ohio Indicate That Straight Slates Have Carried.

Columbus, O., Aug. 9.—Early returns from the Ohio primary election indicated that both the Republican and Democratic state slates headed by Governor Frank B. Willis and ex-Governor James M. Cox respectively, had carried practically without a break.

50 Killed in Explosion.

Koenigsberg, East Prussia, Aug. 9.—An explosion of ammunition which was about to be shipped from the depot here caused the death of thirty men and twenty women. Fourteen other persons were injured severely and fifty-eight received minor injuries.

Get the Habit of  
Drinking Hot Water  
Before Breakfast

Says we can't look or feel right  
with the system full  
of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Hot weather is hard on people troubled with their stomach and bowels. Hollister's Rocky Mountain Tea is just what you need to regulate the bowels, tones and cleans the stomach. Take it and be cool and happy—overland Bros.

**HUGHES SPEAKS TO CHICAGOANS**

Nominee Talks in Place Nomination Was Made.

**SENATOR SHERMAN PRESIDES**

Mayor Thompson Is in Charge of Meeting—All Speakers Predict Republican Victory—Nominee Says He Did Not Seek Position of Presidential Candidate.

Chicago, Aug. 9.—Charles Evans Hughes, who was expected at 8 o'clock surprised the crowd that packed the Coliseum Tuesday night by appearing a minute ahead of time. He responded to the roar of cheering with smiles and bows. He wore a blue cut-away and his white vest made a fitting foundation for his genial be-whiskered face.

After the demonstration had lasted three minutes, Mayor Thompson pounded with his gavel, and when the throng quieted he announced that the Rev. J. P. Brushingham would deliver the invocation.

Dr. Brushingham prayed for a "sweeping victory" and "national safety," and asked the Lord's blessing on the holy evangelism of good citizenship.

Mayor Thompson introduced Senator Lawrence Y. Sherman as chairman of the meeting and the band played "Illinois."

**Sherman Talks of Pledges.**  
"In these historic walls last June the Republican party nominated a candidate who will be elected," said Senator Sherman. "He will be elected on the specific pledges of a platform, which, when translated into laws of the republic, it will be learned the pledges of this party are made to be kept."

"Charles Evans Hughes understands that respect among foreign powers must be substituted for suspicion, and that we must resume our rightful place among the family of nations."

"He understands prosperity must be built on something more substantial than war orders."

**Demonstration for Hughes.**  
The demonstration that followed Mr. Hughes' introduction was silenced after two minutes.

"My heart thrills to this greeting," said Mr. Hughes. "Today you gave me the best of Chicago's blessings, a fine lake breeze I have enjoyed every minute of this beautiful day."

"I did not seek the nomination. I did not desire it. I was satisfied with my circumstances. But when that call came it meant but one thing, the summons to an obvious obligation, and as I was 100 per cent a judge on the bench, I became 100 per cent a candidate."

"If the Republican party will go forward in preserving the prosperity of the United States in the crisis that confronts it, it will forever have the gratitude of the country, as it had fifty years ago when it saved the union."

**Test for Democracy Here.**  
"We are now coming to the time of test for democracy. It is easy for democracy to be lavish in its favors without regard for the future. The hard thing for democracy to do is to be far-sighted. It is easy to fill your lawbooks full of beautiful language, it is another thing to put them into action."

**OWNER OF MODEL FARM DEAD**

Albert Peck Never Recovered from Injuries Received from Employees.

Chicago, Aug. 9.—Albert Peck, one of the largest sheep raisers in the United States, owner of 23,000 acres of land in Missouri and a number of valuable farms in Illinois, died at his farm in Geneva, Ill. He was found dead in a barn, where he had fallen while inspecting the place.

A year ago he had an altercation with several hands on his Geneva farm and was severely beaten. His skull was fractured and he was injured internally. He never fully recovered from these injuries.

**CHAPMAN PULLS RARE PLAY**

Cleveland Shortstop Scores Run on an Infield Fly.

Cleveland, Aug. 9.—One of the rarest plays in baseball was pulled here in the first inning of the Yankee-Indian game when a fly to infielder was converted into a sacrifice, causing a tally.

Chick Gandil, the Indians' first sacker, sent the leather for a fly to Gedeon in short right and while he held the ball Ray Chapman sprinted across the plate. Chapman is the first big leaguer to pull the stunt this season.

**Crowbar Kills Man.**  
Bloomington, Ill., Aug. 9.—Albert Custer of Saybrook was killed instantly by a crowbar piercing his head when he fell from the roof of an old house which he was razing.

**Keeping up Appearances**

There is nothing more distinctive to American home comfort today than the aim to keep up appearances—an external show for the public which belies the true state of affairs and places the climbers in unenviable positions. Once in a while it is necessary for some families to make a wild pounce and come slowly out, but when this phase is a daily one, it will in time destroy all home comfort. Women desire to live nicely and it is well that they should, for rented surroundings are as conducive to mental happiness as many other pleasures; but when there is deception, large debts and annoyances of the most aggravating nature, then this sort of living is sure to undermine what little happiness might be derived from humble if not luxurious surroundings. If the wife is careful in saving and paves the way for better times, it may be laborious for her, but she will never have to meet that grim visitation of debts and perplexities that go to make up the so-called family skeleton. Over zealous persons with ambitions far beyond their means are those who are merely borrowing happiness for which they must, at some time or other pay both principal and interest. To try to out-dress neighbors or acquaintances, or as the vulgar say, to keep up the "whoopala," causes at least half the troubles that confront American home makers today. It is always best to present the best to the ever critical public, but the sensible woman will not attempt, for appearance's sake, to rub her own happiness and that of her household by extravagant dress or living in the limelight of their own ridiculous extravagance.

**Recipes**

**Asparagus Maria.**—Cut into pieces a bunch of asparagus and put in a saucepan of boiling water to blanch for about three minutes. Remove, drain and put into another saucepan with a small quantity of warm water, butter, sugar and one onion. Set the pan on the side of the fire and simmer gently for half an hour; take out the onion and add a thickening of egg and cream, stir it well and turn the whole on a hot dish and serve.

**Mixed Vegetables with Meat.**—Fat mutton or lamb, one pound; eggplant, one pound; green beans, half a pound; onions, two; one bunch of parsley, half a bunch of mint; five or six strips of celery; tomatoes, two or four half ripe, half unripe; salt and red pepper. Clean all the vegetables properly and cut them and the meat into small size pieces. Put all in a deep flat pan or deep earthenware vessel and, after seasoning with salt and red pepper, place in a moderate oven till well done. It is not necessary to use broth or water with this dish, as the ingredients themselves will discharge sufficient to cook it.

**Fried Egg Plant.**—Take fresh put 1 lb eggplant, or oysterplant—they are one and the same—and cut them in very thin slices, take off the outside, let them stand in water enough to cover with one teaspoon of salt, one half hour before cooking. Wipe them dry. Dip the slices in a beaten egg and then into cracker crumbs with a little salt and pepper. Fry them in fat until they are nicely browned. Omit the cracker crumbs if you like.

**Health Notes**  
Those who persist in going over to their minds the affairs of the day should sip a cup of warm water slowly or a glass of warm milk before going to bed.

In case of bad burns or scalds, linseed oil is excellent. If there is none on hand, however, plain lard can be spread on the burns and then they should be covered with flour.

The weaker the child the greater care a mother must needs exercise in looking after the general health. Five hours per day is long enough study period for a weak child.

Too often an intense pressure on the heels or elbows causes bed sores. This may be relieved by the use of cotton "doughnuts" covered with cloth. Use ordinary cotton, forming it like a doughnut. Sew the cloth on.

To remove wrinkles under the eyes make a soft pad of two or three layers of linen soaked in white of eggs and alcohol (equal parts), lay it under the eyes and let it remain on overnight. Repeat every night until you obtain the desired effect. Bathe the eyes in the morning with cold water.

**Washing Silk and Woolsens**  
To preserve its clear whiteness silk and woolen underwear must not be washed in hot water nor with other garments, and must be rinsed in medium warm water and dried indoors and not outside. The goods should not be sprinkled for ironing. A disregard of these rules will result in yellowing the goods and there is no known method of restoring the former whiteness. Silk and wool will not shrink much if this precaution is taken. Cotton and silk should be washed in like manner and never boiled. If washed in hot water the silk turns yellow and roon rots.

**Use of Pins**  
The amateur dressmaker and milliner must learn the true value of pins and use plenty of them. The amateur makes and tears out, while the professional builds her hat with pins, then bastes and sews. The dressmaker should do the same. Do not be sparing with pins, for they are too serviceable.

**BACKING UP PROOF**

THE KIND THAT DIXON PEOPLE CANNOT DENY

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month, you've read their statements. Would these Dixon people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Dixon man's statement leaves no room for doubt.

It must convince every kindly sufferer who reads it.

If your back aches—If your kidneys are weak, profit by Mr. Walford's experience:

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney secretions were irregular in passage. My back ached too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

**NO TROUBLE SINCE**

On January 21, 1915, Mr. Walford said: "I have had no kidney trouble at all in the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Dr. Walford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

Takes Larger Part of Great Volume of American Goods Now Going Out From United States.

Uncle Sam, in a statement issued by the bureau of foreign and domestic commerce, department of commerce, shows where the huge exports of the United States are going.

About \$148,000,000 worth of goods went to Great Britain in March, 1916, as compared with \$93,000,000 worth in March, 1915. During the nine months ending with March, 1916, more than a billion dollars worth of goods has been sold to the United Kingdom, as compared with \$630,000,000 worth during the same period in the preceding year.

Exports to France are next in size. During March, 1916, \$75,000,000 worth went to that country, nearly twice as much as was exported to France in March, 1915. For the nine months ending with March, 1916, France took \$423,000,000 worth of American goods, \$200,000,000 more than in the same period of the previous year. #### Household Notes

A worn out whisk broom can be utilized  
as a sink brush by shortening the  
bristles to a thick square edge. It is  
much more efficient than the brush  
usually sold for that purpose.

Grandmother says: "When dish towels  
get thin, double and stitch across  
in all directions. They make good dish

### Lang Talked Morse

Mr. Durfee was called out a few  
moments ago. Very likely he had been  
No. 10 word; his departure was  
most hurried," said the police secre-  
tary at the reform party's head-  
quarters.

Down on the street again Lang  
halted irresolutely. Star men were  
not supposed to return with the ex-  
cuse that the man they sought could  
not be found.

"Did you see Mr. Durfee come down  
a few minutes ago and notice which  
he went?" he inquired of a taxi  
driver whose machine stood nearby.

"A guy came down those stairs and  
asked my partner to drive him to the  
Palms, and he said hurry like he  
meant it," was the surprising reply.

Surprising because Hon. James  
Durfee was candidate for mayor on the  
reform ticket and was the man who, it  
was hoped, would relieve the graft-  
ridden city of some of its unwhole-  
some things, among which was the  
Palms, a saloon used as political head-  
quarters by the party then in power.  
Mr. Durfee was the Star's choice, and  
Lang Davis, the youngest reporter and  
cousin of the owner, greatly admired  
the fearless champion of temperance  
and city cleanliness.

"Be as quick as you can with the in-  
terview. You ought to be back by nine  
at the latest," Marshall, the night edi-  
tor had said.

Lang glanced at his watch. His  
cousin had given orders that the boy  
should be given no assignments to the  
Palms, but this was different.  
The reform candidate had often told  
of the work among the poor. Doubtless  
he had been called by some sad case.  
There might be another story for the  
Star, and Lang felt that he could af-  
ford to lose no stories. He was not as  
yet making the great reputation as a  
reporter which he had planned for  
himself.

Upon his graduation from high  
school he had been offered a position  
by his cousin, owner of the Star, and  
had eagerly accepted it, but found lack  
of experience a serious handicap. At  
home he had worked about the depot  
evenings and picked considerable  
knowledge of telegraphy, but this was  
of little service now, except that it  
made him ready friends about the rail-  
road offices, and once or twice led to  
his bringing in some wreck stories  
which were "beats" for the Star. Lang  
wished, however, that he had spent  
the time working about the office or  
gathering locals for the home paper;  
that at least, would have helped a lit-  
tle with the new work.

He decided to follow Mr. Durfee to  
the Palms and secure his interview as  
quickly as possible.

To his brisk question the surly bar-  
tender nodded an affirmative. "Back in  
the private room," he said. He had  
thought he recognized Lang as the  
boss' own son, or the young fellow  
would have received a different recep-  
tion.

Following the direction of the man's  
rod, Lang walked down the hall until  
he came to a door with private scrawls  
in big letters. His hand on the  
knob, he hesitated. A voice that he  
knew well came to his ears. He swung  
the door open softly.

"We'll show these straight laced  
guys a real town, a real Paris! You  
make good with me—"

These words and the sight of Har-  
rodsville's reform candidate lolling  
back in one of the "Shortcut" Mori-  
arity's easy chairs, smiling across at the  
man whose shortcuts to the city treas-  
ury had won him the cognomen of  
"Shortcut," and whose pernicious work  
had enabled the saloons and grafters to  
fasten themselves upon the city,  
stopped Lang at the threshold, but he  
did not stop more quickly than the man  
in the chair.

"Why, Davis—er—Davis, glad to  
see you. What—er—what can I do for  
you?" stammered Durfee, his face go-  
ing from pink to white and back to a  
deep red as Lang continued to stare  
at him without speaking.

"Speak, can't you?" shouted Short-  
cut, turning on the young fellow. "Dur-  
fee, who is this tongue tied fellow? Is  
he one of your men, or a blanked  
spy?"

"Davis is connected with the Star—  
cousin of the owner," said Durfee,  
speaking with difficulty.

The pudgy face of the boss turned  
almost purple, and he glared at both  
Durfee and Lang, but just as they were  
expecting him to break forth in a tor-  
rent of abuse, he controlled himself.

"Why couldn't you watch out for  
spies Durfee? You have played dou-  
ble so long you think no one can catch  
you. Now I've got to help you to save  
myself. Thank! Dick!" he roared.

At the words two men came run-  
ning down the hall and burst into the  
room. Rough and tough enough they  
looked.

"Just a moment," said Moriarity,  
turning his evil little eyes on the boss.  
"Young f fellow, what are you going to  
do if we let you out of here tonight?"

Lang's eyes passed from man to  
man. Dick and Hank looked ready  
enough to do the boss' bidding, what-  
ever it might be. Durfee's eyes had  
turned hard and cold, reflecting the  
real nature of the man, now that his  
mask was off. Shortcut's eyes held  
their ugly gleam.

Would they let him go if he prom-  
ised to keep the shameful secret of the  
city's betrayal? For an instant he  
was tempted to promise. A promise  
under such circumstances—then the  
quiet courage of his soldier father

came to the front. Election was but  
one day away.

"I shall return to the Star office  
and tell exactly where I found Mr.  
Durfee and repeat his remarks."

The reform candidate tipped out a  
savage oath. "That will mean that the  
Star will spread the news so loud that  
even your help won't elect me, Mori-  
arity."

"It will mean Morley, right enough,"  
growled Shortcut, "and Morley is hon-  
est, if it will to you any good to know  
you Star man. Boys, tie him up  
zag him and throw him in that closet  
until the streets are empty; then hus-  
tle him over to Mike's in a taxi, and  
see that he is kept mum until you  
have my word to do something else."

Lang made a stubborn fight, altho  
he knew that the odds were too many  
for him, and was well beaten for his  
temerity. Bruised, bleeding, half un-  
conscious, and suffering pain from the  
torn handkerchief forced between his  
teeth, the young reporter was tossed  
unceremoniously into the far corner  
of the closet, and the door slammed  
shut.

For a long time there was no sound  
from either adjoining room; then the  
room beyond the closet was entered by  
two men, both of whom Lang judged  
to be more or less intoxicated. Thru a  
little crack at the bottom of the thin  
boarding their voices came quite plain-  
ly and something familiar about the  
tones of one caught his attention.

"Must be going, old man," said one  
of the men, rising unsteadily. "You  
better come along too. Your trick  
pretty quick now."

"Let old telegraph job hang!" mum-  
bled the man whose voice was vaguely  
familiar. "Tell chief I am sick. Tell  
him run over by auto. Tell him Brady's  
awful tired and is going to sleep."

Brady! Lang had known Brady back  
in the home town and later in the  
city office where he was employed.  
Evidently the operator had allowed  
his one weakness to get the better of  
him. Lang waited for the other man to  
leave for he well knew Shortcut's  
hold over the regular habits of the  
place. The reporter need expect no  
help. Twice he tried with his fingers  
to tap out a call in the Morse code.  
His hands, numb and bound, refused  
to do his bidding.

Then a flash of inspiration came to  
him as he remembered a test he had  
made with Brady when they were  
working together.

In spite of the gag in his throat he  
began to make Brady's call over and  
over. To the uninitiated the guttural,  
uncouth sounds might resemble the  
chatter of an African Zulu, or a person  
in acute distress, but to the trained  
ear he knew it was possible to "talk  
telegraph."

"Hn, Hn, Hn." Over and over he  
made the letters.

"Now what's that?" he heard Brady  
mutter. "Since when did old Shortcut  
install a thing to make a telegraph  
call by word of mouth?"

"It's Lang; speak low," came from  
the closet, still in the Morse.

Habit was stronger than drink.  
Brady had been an operator for twenty  
years, and dots and dashes in any  
form dominated his mind. Sobering  
rapidly he dropped on his knees and  
crept to the closet wall.

For half an hour the young reporter  
talked Morse, and the old reporter  
raptly interrupted. Twice some of the  
rough attendants yelled at Lang to  
stop growling and several times to al-  
lay suspicion Brady had to order  
drinks, which he immediately poured  
upon the floor.

Then, acting the part of a much in-  
toxicated, but wily happy individual,  
Brady wandered out of the place and  
reached the first corner. A taxi was  
crossing the street, and a moment later  
the operator was inside and speeding  
toward the Star office.

There were many things going im-  
mediately following his arrival. The  
owner called from his home, came in  
haste, and demanded to know why po-  
lice had not been sent at once; listen-  
ing to Lang's wishes, as told to Brady  
and then gave orders accordingly.

Imprisoned in an old hotel Lang had  
lain the day thru without food or drink  
and still gagged, suffered terribly, but  
not for a moment had he regretted his  
course.

Just at dusk heavy steps came down  
the hall, stopped at the door, and the  
next instant a powerful shoulder had  
burst in the barrier, and the room was  
full of men—two officers, his cousin  
the day city editor, and others of the  
Star force. All at once Lang found  
that he was being made a hero of, ev-  
en the grim city editor was smiling  
and shaking his hand.

"Greatest ever, boy!" cried his  
cousin. "Brady said you wanted to be  
left so that the trap could be sprung  
too late for them to fake up denials,  
and so we let it go that way, but don't  
think I left you in danger. A detective  
has been hidden in this building all  
day, and your captors were watched  
last night. Now let's go to a phone. I  
told them not to let a paper out until  
we had you safe."

As the party gained the streets the  
newsboys were swarming out with  
their first armfuls, and their shrill  
cries echoed far.

"All about the reform man, a pal of  
Shortcut Moriarity! All about Morley,  
the independent, who's going to be  
mayor."

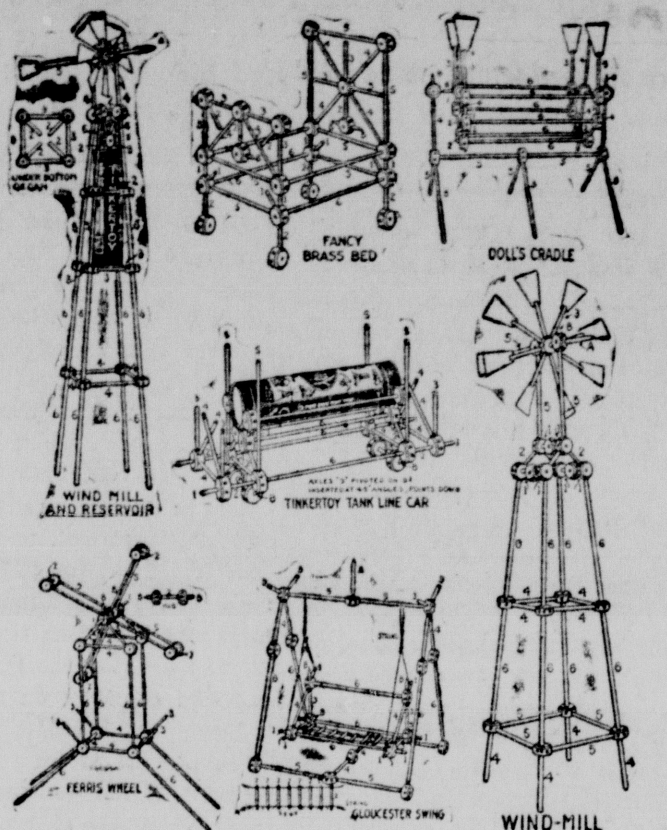

"It turned out right that time," said  
Brady, that evening, "but it's the last  
for me. One more swallow and I would  
n't have known if the house fell in,  
and then where would you and Har-  
rodsville have been?"
